1 The Overall Structure

- A **User**, accessing the DVN and Zelig software via the Web
- The **DVN-Software**
- The **DVN Website** which communicates to the DVN-software and Zelig-software
- The **Zelig** software
- The **Zelig-script**, which will be generated based on valid, user input
- The resulting png/jpg/gif, giving back the results of the Zelig-script

2 Current Flow

1. User visits DVN Page of Advanced Statistical Tools
 - (a) User selects a statistical model from the drop-down menu
 - (b) Webpage adds relevant forms
 - (c) User interacts with forms, adding columns to each "Equation"
 - (d) DVN-software checks validity of each column
